DETAILED ACTION

Claim Objections

Claim 4 is objected to because "the other connecting means" (lines 1-2) lacks proper antecedent basis. Appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Walmsley (EP 1 106 768) in view of Peter (U.S. Patent 895,297).

As applicant is very familiar with his European patent, discussion thereof will be brief. Walmsley does not teach the tubular bow-top fence members; however, this configuration is old and well known, as exemplified by Peter. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have used the applicant's prior invention with a tubular bow-top fence in order to obtain a desired ornamental design, for example.
